

Family Integration Training (FIT) – Client Comments

FIT Program Description

Family Integration Training (FIT) helps households live in harmony with their dogs. Trainer Neil Knolle evaluates how a dog responds to its surroundings and household routine, and then tailors a plan with realistic goals and easy-to-do steps. Neil supports what owners are already doing effectively, and recommends adjustments to improve dog behavior. Household members play a major part in the FIT process. Neil gently guides practice to build confidence and put family members (dogs included) at ease. FIT Training improves dog behavior on leash and in the home.

Client Comments about their FIT Experience

"FIT was the best investment our family has made as a "family." We learned as a team...and shared the joy of welcoming our dog to our family."

"We learned control, calm, and ways to celebrate and respect canine companionship. Wonderful, wonderful!"

"We had a great time working with Neil. It was more like meeting a long-lost friend; totally relaxed."

"Thanks to the FIT trainer Neil, we went from feeling helpless with our beloved, rough & rowdy, out of control, big, strong dog. He became peaceful, cheerful, and usually does what we tell him to do. What a change!"

"I recently hosted a luncheon for several ladies – all had heard a lot about Max. Some were eager to meet him, others were a little nervous. After the meal, I let him out of his crate. He walked calmly beside me into the living room and went to each lady to say hi. They were charmed. I was so proud of him."

"Neil is fabulous with people and amazing with doggies. Mac loved him. Can't wait for the FIT tune-up."

"My boyfriend was afraid of my German Shepherd and now, solely because of Neil's training (for the boyfriend, not just the dog), he walks my dog daily."

"Neil is outstanding and we will look forward to working together again when Henry is older. We learned to be better owners, thanks to Neil."

"We were extremely pleased with Neil's help! He helped us realize that our dog Chloe wasn't aggressive, just exhibiting puppy-like behavior. It was really helpful to be shown how to hold the leash. I would definitely recommend Dogon Fitness FIT services. Thank you!"

"Neil has done wonders with my dog. I just walked him after Neil walked him last night...wow!!"

"Neil was a great help with our two 11-month old labradoodles. The dogs are responding to the new instructions. We have lots of work left to do but feel MUCH BETTER prepared than before. We highly recommend Neil."

"What a tremendous help for us! It was such a pleasure to work with Neil and learn from a master of dog training! Thank you for putting us on the right path!"

"Neil was such a help when we adopted our dog. The session was helpful and made us feel at ease with our new family member."

"Neil was great...and patient! We would absolutely recommend him and will probably use his services again."

"I was impressed with Neil's ability to focus on what I saw as the problem with my dog, and to help me solve it."

"Neil is amazing! I have already recommended him."

"We had a wonderful experience with Neil, learning to walk our two dogs at the same time. Our dog walkers also see an improvement. The dogs are having fun-filled controlled walks, which is great for all of us."

"It was very helpful to have an experienced trainer show us how to be consistent with cues and walking behaviors, and WHY it makes a difference in our relationship with our dog."

"Murdock is doing great! And, yes, he seems to be anticipating his feeding and walking schedule. He seems very content, and very calm. All in all, it's going better than I thought it would. Thanks so much!"

"Grover has made great progress. He does great on leash and any deviations in his behavior are easily corrected with the techniques you trained. Overall, we are doing great. Grover is a great boy and we really love him."

"Neil did a great job with our family. Thank you."

"The FIT dog training was a great success. Thank you so much. Our 11 month-old Golden Retriever is doing so much better. He's not jumping on people anymore. We would always train with Neil again. Thank you Neil."

"Neil is the best trainer I've ever had, and I've had 4 or 5. Neil actually listens to what the real problem is."
